To Whom It May Concern:

I, _____ am signing this Letter of Interest so that I continue to receive developing information about the Shanti Village Adult Living Community of Fort Collins until I notify them that I no longer wish to do so. I am submitting this Letter of Interest because I believe that I might have or know someone who might have an interest in living in the community in the next _____ years.

This letter does not bind me to purchasing in the community and it does not bind the community development to selling me something in the community. It is only indicating that I have more than just a casual interest in the development so that local developers, builders and retail prospects can see that this project is a viable pursuit.
